

Debunking Vegetarian Origins In Dharma

-High Priest Mageson 666

Many well-meaning people at one point myself included became vegetarian and many for spiritual reasons after studying the ancient Vedic texts. I extended my own vegetarianism for such reasons as well as many have. This is not to deride or blame anyone for such. But to point out the reality of events and how what has been taught is not what was originally there.

Vegetarianism was only brought in to the East sixteen hundred years ago. This is why the original Buddhist texts make no mention of such and the Character of Siddhartha eats meat as well. Buddhism while corrupted and guised Jainism does still not go as far to push vegetarianism while open Jainism does. But around nine hundred years later in India a false discourse was created where Siddhartha preaches vegetarianism. Because it's at this point vegetarianism was being imposed on the population by the ruling class. So any temples that wanted to stay open had to fall in line as the rulers where the money patrons of the religious orders and temples. They were holding the purse strings.

The only group originally preaching vegetarianism where the Jains. Who were well known to be anti Dharmic and constantly trying to subvert the culture with their ideology which amounts to metaphysic Communism. If one takes the Sermon on the Mount and puts a Jain in the place of Jesus. You have Jainism. Sadly as Hindu scholars mention the old Dharma is long gone and replaced by Jainism in the guise of Dharma. There is a warning to this in the Siva Purana's. And the tales of the Sivaite saints mention the Jains violently attacking the bastions of Dharma and its followers and also trying to subvert them from within [like the Christians do everywhere]. This program was obsessed with removing spiritual knowledge and authentic tapas [exercises that transmute the soul] and replacing them with the gross self-modification one sees today in the East and in the Christian Monasteries.

The current eightfold path of Dharma in Hinduism is actually the eightfold path of Jainism the original was removed. But remained in the Tantric path. The amount of removal of spiritual knowledge that has occurred is staggering. The push to vegetarianism is within this environment. Note the proof is in the result. India under this corrupted paradigm has fallen apart and stagnated and has hardly produced any highly ascended if any beings in centuries. The corruption of spiritual knowledge and the norms imposed makes it impossible or close to impossible to advance to any high level.

Vegetarianism:

With caraka samhita which has been stated to be the oldest Ayurvedic text it state: Sharirabrinhane Nanyat Khadyam Mamsadwishishyate." Which translates to 'For the promotion and nourishment of the body, no other food item is better than meat.' Another Ayurvedic text the Bhava Prakash, states 'Sadyohatasya Mamsam

Syadbyadhidhatiyathaamritam', which translates to 'the meat of freshly killed animals is like Amirt (the ultimate life-giving fluid that sustains the Divine)' We have the Bagabhatt (Astanga Samgraha) stating nothing equals meat for promotion of health and substance of the body."

The Vedic text Satapatha Brahmana states 'Paramam Annadyam Yan Mamsam', meaning "Meat is the best kind of food."

Meat is listed under the sattvic category. "The life substance."

"Consumption of meat improves one's mind inner energy and strength; and that the consumption of fish restores one generative power." The Yoga of Power.

This is from an answer to another thread:

With the situation in the East and Far East the original culture model was men where considered the Deva and women the Devi. Each had a sacred role to play within the cultural model. This still survives in parts of Hinduism where upon a female's first period. She is considered a Goddess as she now has the power to create life.

The deal is by a thousand tactics the enemy injected their doctrine over time into the East. By the covert enemy ideology OF Buddhism which openly considers women inferior on every level to men. Its Catholicism with daily basic meditation to help one obtain extinction of consciousness upon death. Buddhism went into the Far all the way to Japan. It didn't get all that far into Japan but enough to change the cultural norms and assign women to an inferior property status. Same in Tibet. So Buddhism did to women what Christianity did.

Hinduism as one Indian scholar put it is.....Just covert Buddhism. The cultural terraforming of centuries of Buddhism as an Imperial Religion and the networks it created kept it strong enough to alter the social belief forever more. The reformation back to the Vedic paradigm which was under way in the first thousand years ACE. Was destroyed by the subversion of crypto Buddhist doctrines into the Vedic terminology fully. With the final stealing of cultural terms by the enemy and the assigning of their meanings behind them. It was over. The greatest Saint of Hinduism who saved it. Actually destroyed it as with subversion, it was very Hegelian. And was denounced as such in his time. Also that ridiculous pseudo Vedantic, clownery of Shankara, it as the Tantric commentaries prove actually debunks itself totally as nonsense. Just pick up the Brahma Sutra's and prepare yourselves to be.....bored. They actually debunk themselves in their arguments and people are revering this armpit fart on paper as something lofty and true. Did they ever read it? If they did they should read it again and again till its ugliness and clownery sinks in. Its such a clown show Shankara was the original Juggalo.

Of course all we ever got dished up in the West was this pseudo Vedantic crap which amounts to hundreds of pages of Shankara going: "Fucking Brahman how does that work?... Brahman everywhere in this bitch."

No mistake Guénon was pushing this as the apex. It fits with his overworked left moving, theological brain. That drove him to become a freaked out freak for Islam. It fits with the Abrahamic tradition of "How many angels can dance on the head of a pin." perfectly.

The original Vedic esoteric knowledge lived in the Tantra, and points to the truth. Where spiritual realization and truth wanes, speculation begins.

Then with the Islamic invasions over hundreds of years what Hinduism started to look like its current model. A Islamic wannabe, worship cult, this is how Sikhism formed. They absorbed a lot of the Islamic norms its around this time the erotic temples are no longer built and the Hindu regions even shift to Mogul architecture. This is where we get this Henotheist to crypto Monotheist attitudes and believes of current Hinduism. They were aping the Muslims. Its around this period the very Abrahamic looking devotion cult of pseudo Bhakti becomes the norm.

Then comes in the Christians under the Raj period imposing further Abrahamic norms on the population. Along with this the Jesuits who have been in India for awhile by this point. Have been traversing the continent removing any remaining spiritual knowledge buying and stealing all the Tantra's up they can. And this is mostly likely where more and more remaining knowledge gets corrupted to make sure those that want to advance don't get anywhere and are powerless against the enemy programs. However the corruption of spiritual knowledge started with Buddhism which is obvious by the tenants of Buddhism itself. But thousands of years of Tradition can't be removed just like that with subversion it takes the forces of another type of revolution. Since the Tradition was based on the practice of spiritual knowledge they had to corrupt the Tantra. This is proven in Tantric Buddhism which was brought up from North Indian from the Pala Kingdom. Naropa himself was stated to be a great scholar and teacher at Nalanda university. Having studied dozens of Buddhist Tantra's they are all very corrupted. Which allowed the Communist's to sweep Tibet away. Just as centuries of such corruptions and psychological subversion allowed the Muslims to do the same to the North regions of Buddhist India.

Something at the locus of this reveals itself quick. The Jewish Therapeutae:

<http://www.jesusneverexisted.com/buddha.html>

There are records from Alexandria that indicate the arrival of a steady stream of Buddhist monks and philosophers. They would surely have contributed to the philosophical speculations and syncretism for which the city was noted.

In particular, it seems the original Therapeutae were sent by Asoka on an embassy to Pharaoh Ptolemy II in 250 BC.

Philo Judaeus, a 1st century AD contemporary of Josephus, described the Therapeutae in his tract 'De Vita Contemplativa'. It appears they were a religious brotherhood without precedent in the Jewish world. Reclusive ascetics, devoted to poverty, celibacy, good deeds and compassion, they were just like Buddhist monks in fact.

From the Therapeutae it is quite possible a Buddhist influence spread to both the Essenes (a similar monkish order in Palestine) and to the Gnostics – adepts of philosophical speculations."

As shown here:

The Jewish Creation Of Christianity:

[topic542.html](#)

The Therapeutae created the Christian program. Jainism of which Buddhism is just a covert form and thus Buddhism as well is simply.....Communism with spiritual pretense, like Christianity. Originally this psychology only comes from one race of peoples mind. The Jews, as the famous Jew, Weininger states in his book "Sex And Character" on page 311. "The Jew is a natural inborn Communist." There are also many other statements from Jews mentioning the same. This is in their soul. At the point of such programs as Jainism, Buddhism and Christianity. The Gentile world was still Vedic. And Jainism and later Buddhism was always considered subversive and anti-Vedic. Leading to more than one cultural conflict in India in the past. Sometimes violent, as the two worldviews are totally opposed to each other. Which is why today the core of Dharma [Hinduism] in the East. Is the eight fold path of Jainism. The Indian scholar is correct.

The Jews have been in India for thousands of years probably among merchants and money leaders from the evidence. And where from the above evidence behind injecting subversive movements into the society just as today and yesterday and the day before that. Its what

they have done their whole history. We come to a psychopathic ruler Assholeoka, who after murdering his way to power and resorting to destroying the freedoms of whole peoples and extermination policies against them. At some point understands psychological control is more effective. Perhaps he can't fight another decade long war.

So he uses this Buddhism to become the way to power and it allows him to bypass the Brahmana, class who are the aristocracy of the period as Theology was ideology and Theocrats ruled. And the Brahmana were originally the same group as the royal-warrior class. This allows Assholeoka to create a new ruling elite and ideology depended upon and totally loyal to him and his regime. This was done before by Akhenaton in Egypt and caused a civil war to restore the sacred tradition.

So Assholeoka of whom is not alone. There is never one man its always a incorporated trust of powerful individuals, families and networks behind the scene. Turns at some point to these people who have the wealth and ideology to create the new regime he wants. So they incorporated as an organized crime collective. This is the exact series of events that happened in Rome with the Flavian dynasty's creation and rise to power. And noting the Jews were among the power elite in the Roman Empire to become the core of the New Caesar dynasty. Its predictable they were in the Eastern Kingdoms and Empires as well. Considering India was the hub of civilization and wealth. The Mauryan Empire was a superpower at this period. At this point they found their opening. One can witness on a Indian synagogue wall a plaque from the local King in the past. Openly declaring the Jews above the laws, and even taxation, thus granted Royal privileges.

The city, Shankara was from had the largest Jewish population during the time he was around as well. He ran a operation typical to what Jewish Luther did in Europe later. Wonder how despite being denounced by many Brahmana's and scholar's his works had the network, time and money to be placed out front. When there were hundreds of others. The movement to destroy the Vedic world was going on for awhile before this point. The Bhagavad Gita also reflects this. Indian scholars have stated it was originally wrote to protect the Vedic tradition against such forces mainly Assholoka's Buddhism and the character of Arjuna was a swipe at Assholeoka propaganda about himself. But as they also highlighted the Gita has been written and rewritten and altered by anti-Vedic interests in return till it no longer recognizes its original text. Which is obvious its full of enemy doctrines and contractions. It was altered till it became a core document for the current anti-Vedic paradigm.

Of course the people who think its some holy book that God spoke also believe Shankara's clownery is epic as well. Its the same in the West with those who hold the fictional Bible in the same light. Garbage in Garbage out.
